

**Reviewer Comments**

**Title:** 6-day-old term infant with fever and lethargy.

**Author:** Gangaram Akangire *et al.*

Date: April 21, 2018

Reviewer: D. Rigante

---

These six references have not been written with the same style: there are commas, full points after initials, spaces, inverted commas, authors omitted, initials “MD”, etc. without an unique style through the six papers suggested.

I believe that authors should be very precise also in the form, though this is a minor request.
